

ST THOMAS MORE RC SIXTH FORM

A Catholic Sixth Form serving the young people of North Tyneside

GEMMA

“I chose to move here for Sixth Form because I liked how big the school was and how much support was offered for each subject.”

I study Maths, Physics and Geography. I didn't attend St Thomas More for Years 7-11, but chose to move here for Sixth Form because I liked how big the school was and how much support was offered for each subject. I was also impressed by previous exam results, so felt this would be the best place for me. It was the correct decision!

The support and extra drop-in clinics offered by staff are fantastic, and really support my learning. There are also loads of extra-curricular options available. I have chosen to be a Literacy Ambassador for my Wednesday afternoon Enrichment option, and love the opportunity to support younger students in their learning. I have also recently been on two days of Geography Fieldwork, giving me the chance to prepare for my Independent Enquiry later on in the year. I have really enjoyed the chance to see things I have studied in the real world.

I love all the teachers that I have here. Even though the school is bigger than my old school and there are more people per class, I still have a personal and positive relationship with each teacher and feel like I can speak to them about anything.

I think the Sixth Form block is a great learning space as it provides room for silent independent work, but also has a chill area in the common room. If the Sixth Form library is busy, there is usually space in the main school library, so there is always somewhere to get on with your work.

Day in the Life of a Sixth Form Student
