BTCE Computing

Step-Up Activities

Access the following website: https://www.codecademy.com/

You will then need to sign up to the Code Academy website. You will need to do this to complete the activities online via the site.

Once you have completed your sing up you will need to scroll down to the bottom of the page and select the Python option:
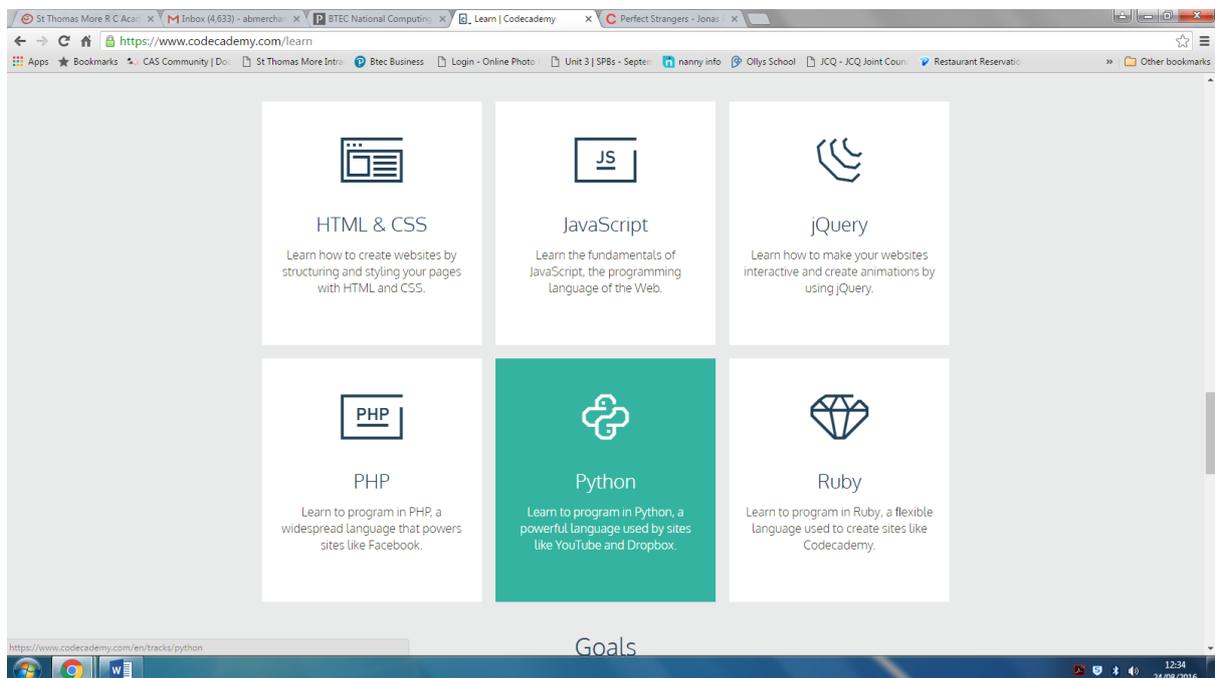

You will then be given access to 12 Units of activities which will develop your understanding and application of programming using Python.

You should complete up-to and including unit 9.

If you need any additional support then access this online book:
http://python.swaroopch.com/

Once you return to 6th Form staff will expect you to logon and see your progress and completion of the activities.
